

## ReactJS- 10th HandsOn

### App.js

```
import React from 'react';
import './App.css';
import OfficeList from './components/Office';

function App() {
  return (
    <div className="App">
      <OfficeList />
    </div>
  );
}

export default App;
```

### Office.js

```
import React from 'react';

const OfficeList = () => {
  const offices = [
    {
      name: 'TechSpace Towers',
      rent: 55000,
      address: 'Bangalore, MG Road',
      image: 'https://via.placeholder.com/300x200?text=TechSpace'
    },
    {
      name: 'UrbanHub',
      rent: 75000,
      address: 'Hyderabad, Hitech City',
      image: 'https://via.placeholder.com/300x200?text=UrbanHub'
    }
  ];

  const getRentStyle = (rent) => ({
    color: rent >= 60000 ? 'green' : 'red',
    fontWeight: 'bold'
  });
```

## ReactJS- 10th HandsOn

```
return (
  <div style={{ padding: '2rem', textAlign: 'center' }}>
    <h1 style={{ fontSize: '2rem' }}>Office Space Rentals</h1>
    {offices.map((office, index) => (
      <div key={index} style={{ border: '1px solid #ccc', padding:
'1rem', margin: '1rem auto', maxWidth: '400px' }}>
        <img src={office.image} alt={office.name} style={{ width:
'100%', height: 'auto' }} />
        <h2>{office.name}</h2>
        <p style={getRentStyle(office.rent)}>Rent: ₹{office.rent}</p>
        <p>Address: {office.address}</p>
      </div>
    ))}
  </div>
);
};

export default OfficeList;
```

## Office Space Rentals

 TechSpace Towers

### **TechSpace Towers**

**Rent: ₹55000**

Address: Bangalore, MG Road
